**Also available in non-standard colors**

Global Cat 6A System Solution

- Part of our ATLAS-X1™ and EXTREME™ SST Cat 6A UTP MILLENNIUM Global Systems
- System Application Score of 8.0* with ATLAS-X1 SST CAT 6A UTP MILLENNIUM Global System
- Manufactured with Leviton's Precision Twist Technology
- Specify consistent performance for your networks globally

Small Outer Diameter 6.9mm

- Enables higher cable density
- Reduced cable tray / containment cost = improved return on your infrastructure investment

Lower Carbon Footprint

- Manufactured in our Glenrothes Carbon Neutral facility
- Smaller cable with less material has 5-7% smaller Carbon Footprint and reduced transportation footprint

High Performance

- Guaranteed System Margins
- Extended Distance Performance by Speed
- Extended PoE Distance Supported
- ATLAS-X1 and EXTREME jacks and SST cables exceed Power over Ethernet (PoE) standards up to 100 watts

Fast To Install

- Greater flexibility
- Faster termination times than competitive cables
