

Decora Smart[®] Fan Speed Controller (2nd Gen)

APPLICATION

Decora Smart Wi-Fi[®] 2nd Generation devices connect to a Wi-Fi network and the My Leviton app to provide wireless lighting and load control for the whole home.

Leviton's Decora Smart Wi-Fi 2nd Gen Fan Speed Controller makes it easier than ever to make your ceiling fan smart with quiet fan control and four speeds. Once installed, use the built-in fan speed level buttons to set your fan to low, medium, high, or max speeds in addition to on/off control with the Decora rocker. Use your voice with Amazon Alexa, Google Assistant, or Apple Siri—or use your smartphone or tablet to control your ceiling fan with the My Leviton app, even when away from home. With built-in scheduling, you can control your fan at specific times of the day, or at sunrise or sunset.

The D24SF Fan Speed Controller looks right at home with your other Decora brand in-wall devices. Combine with other Decora Smart Wi-Fi devices to create a Whole Home experience with room scenes and activities to match your lifestyle.

WORKS WITH MY LEVITON

The My Leviton app provides control from anywhere, device customization, scheduling, and management of your Decora Smart devices including connectivity to My Leviton integration partners and voice assistants. With the My Leviton app you can configure fans to turn ON/OFF and adjust speeds to circulate the air at scheduled times. Adjust minimum and maximum fan speed settings. Choose a preset fan speed when turned on or optionally have the fan always turn on at the last speed. Use the auto-shutoff feature to act as a countdown timer. The My Leviton app is also ideal in situations where it is impractical to use the pull-chain to control the fan such as high up in a large room where the fan may be out of reach.

WORKS WITH AMAZON ALEXA

Use your voice to control ceiling fan speeds (low, medium, high, and max) from compatible Alexa devices such as an Amazon Echo, Echo Show, the Alexa app, or the Decora Smart Voice Dimmer with Amazon Alexa Built-In.

WORKS WITH HEY GOOGLE

Use your voice to control connected fans with Hey Google or from the Google Home app.

WORKS WITH APPLE HOMEKIT

Add to Apple HomeKit and control with the native Apple Home app on your iOS device, providing compatibility with Siri for voice control.

WORKS WITH IFTTT (IF THIS THEN THAT)

Use the free IFTTT service to connect your My Leviton devices with a wide range of supported Internet of Things (IoT) enabled devices and services to create a smarter home automation experience.

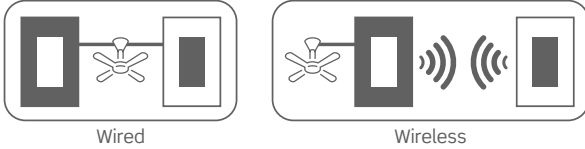

WORKS WITH SCHLAGE

Use the My Leviton app to connect to your Schlage Encode[™] Smart Wi-Fi Deadbolt and trigger Decora Smart Wi-Fi devices based on lock activity.

WIRED AND WIRELESS 3-WAY/MULTI-LOCATION CONTROL

Whether new construction or retrofit, a solution is available for 3-way and multi-way applications. Wired Companions offer additional in-wall control locations with matching LEDs and communication when a traditional traveler is present.

For retrofits, Decora Smart Wi-Fi 2nd Gen devices are compatible with Decora Smart Anywhere Companions, which are easily installed with no wiring required. These wire-free multi-location devices look like a traditional dimmer, fan speed controller, or switch, install quickly, and have a 5-year battery life.

AESTHETICS

Features true rocker action, pressing the top to turn on and the bottom to turn off. Additionally, the vertical bar on the right side of the paddle is used to increase or decrease the fan speed level. Vanishing LEDs on the left side of the paddle show current and target fan level with real-time feedback for the most professional and cleanest installation.

FEATURES AND BENEFITS

- Quiet Fan Controller with 4-forward fan speeds: max, high, medium, low, and off
- Adjust the Fan Speed Controller using the My Leviton app, a schedule, by voice, or using the Apple Home app
- Works with My Leviton, Amazon Alexa, Hey Google, HomeKit/Siri, IFTTT, SmartThings, Schlage
- Connects to Wi-Fi; No hub or bridge required
- Customization options including Auto-Shutoff Timer, Pre-set speed or Return to last speed, Min /Max Speed, Status/Locator and Speed Level LED configuration
- Can be used in 3-way or multi-way applications when paired with DAWDC and DAWSC Wire-Free Anywhere Companions or DD00R and DD0SR Wired Companions
- Decora rocker with fan speed bar and vanishing indicator lights
- Wire leads and a product depth of 1.31"
- Requires a neutral wire for installation
- Compatible with DDKIT color change kits in Ivory, Light Almond, Gray, Black, and Brown
- Settings and schedules are stored within the device and schedules will run even during a temporary internet outage
- For use with one or more ceiling paddle fans with split-capacitor or shaded pole motors, not to exceed 1.5A maximum load
- Compatible with pull chain ceiling fans without electronic control
- Ceiling fan light kits can be controlled separately by using the D26HD or DN6HD with MLWSB
- Not for use with exhaust type fans, lighting loads, or combined ceiling fan light kits

RATINGS

- Fan Motor - 1.5A - 120VAC, 60Hz

NETWORK

- Wi-Fi – 802.11 b/g/n networks - 2.4GHz only
- Security – WPA, WPA2, or WPA3 security, or open
- Bluetooth – v5.0

SPECIFICATIONS

- Operating Temperature: 0°C - 40°C (32°F - 104°F)
- Operating Humidity: 10% - 90% non-condensing
- Storage Temperature Range: -10°C - 85°C

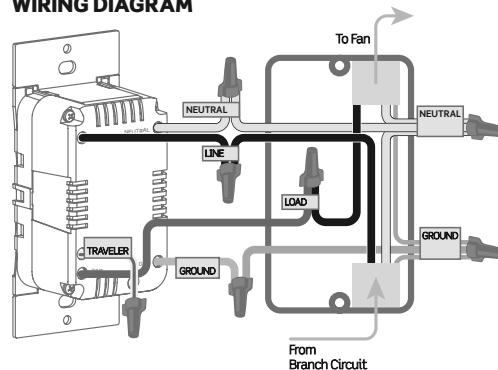

AGENCY STANDARDS AND COMPLIANCE

- UL Listed to UL 60730-1 and CAN/CSA-E60730-1
- NOM Certified
- Complies with FCC Part 15, Class B
- Wi-Fi CERTIFIED™

WARRANTY INFORMATION

Two-Year Limited Warranty
